**Thank you very much for tour time,
Sincerely, Masakazu Oda**

Masakazu Oda
President of E.S.S.

Dear E.S.S.

In the spring of 2002, we entered new era with the opening of Nakamiya campus. I am glad to provide this spectacular campus to encourage your studying at Kansai Gaidai.

I believe that the new campus will help Kansai Gaidai students, who are always curious, to discover new things that will benefit their careers and future. One things that I would like you to keep in your mind is that curiosity is really important to work our your future. Without any curiosity, it will be very difficult to have a successful and brilliant future.

Among the many clubs that make great contributions to Kansai Gaidai, E.S.S. members are working on improving their communication skills. I am very proud that Kansai Gaidai has such an aggressive group of students who are always eager to learn.

Finally, I hope that E.S.S. members will continue to demonstrate their eagerness and curiosity to discover new things. I also hope the successful activities of E.S.S. members will inspire all Kansai Gaidai students to work harder for their academic studies.

Sincerely yours,

Sadato Tajimoto, President

E.S.S. Club 2002 Nakamiya Campus

Seems that the E.S.S. is now well settled on the new campus. The many new facilities provide a great improvement as far as convenience is concerned. For this, everyone is very pleased and grateful. Also, the new campus has an atmosphere that is very pleasant for students and faculty alike. Yes, we can be very thankful for all of this.

And yet, what really makes a college campus great is the people who are gathered there, the teachers, the students, the people working in the offices and other places around the campus. It's the contribution they make through their interaction that makes a college special. We're lucky at Kansai Gaidai to have a very good mix of people.

And E.S.S. is one of the clubs that has made a significant contribution to the success of Kansai Gaidai by providing students an opportunity to develop not only English language ability but also leadership and social skills that will be so important in later life. I am very proud to have worked closely with the E.S.S. during my 33 years teaching here. I'm always so impressed at how hard the E.S.S. members work in order to carry out their activities successfully.

This year, I have been very pleased to see the E.S.S. members as enthusiastic as ever and have heard many comments from my fellow teachers complimenting the activities carried out by the E.S.S. All I can say is that I hope that you will keep up the good work that you are doing.

E.S.S. Adviser

Dear E.S.S.members

The English Studying Society of Kansai Gaidai University is now in the 36th year of existence, and its first on the new Nakamiya campus. I have been fortunate to be associated with the E.S.S. for three years now, as a frequent judge in many of the excellent speech contests, and recitation contests sponsored by and held by the E.S.S. each year.

This year, I was able to become even more closely involved with the E.S.S. as an advisor and participant in the 2002 E.S.S. Summer Training Camp held with in Nara. In the four-day training camp, the seventy plus members of E.S.S. demonstrated an extremely impressive dedication and motivation to improving all aspects of competence in the English language. The summer and spring training camps are just two weeks in the yearlong schedule of ongoing activities held by the sections within E.S.S..

I am constantly impressed by the seriousness with which E.S.S. members, from seniors to freshmen, apply themselves to improving their English language ability. Highly motivated and forward thinking students such our E.S.S. members are surely the wave of the future in Japanese education in the 21st century.

I feel honored to have the opportunity to work with the E.S.S. as advisor and liaison in the coming year, and wish every member the best of luck this academic year, 2002, and through your entire participation in the E.S.S. of Kansai Gaidai.

Sincerely,
Richard Glover

Planning Department

It is my pleasure to introduce all of you to the activities that I have managed so far.

First of all, I want to talk about the training camps that I attended.

One of the spring training camps was held at Hamamura Onsen in Tottori Prefecture. Hamamura Onsen was a wonderful place, and we had a great time with Ms. Theisen and Ms. Kawata.

This past summer, we went to Dorogawa in Nara Prefecture with Mr. Glover. This time we had many exciting events like campfires, catching fish in the river and making curry and rice outdoors. During the camp, we came up with individual ideas so that our experience would be better. We found how wonderful the collaboration with members was!! (^_^)

Next, I will talk about the cultural exposition. On June 14-15, we managed a Crepe shop. In this shop, we made two kinds of crepe. We had two booths in the E.S.S.. This year we cooperated and succeeded.

Lastly, managing for me was very fun, it gave me many important experiences to remember.

**Thank you very much,
Kana Yamamoto**

Coordination Department

It's my great pleasure to introduce to all of you the wonderful activities that I have managed so far. First of all, I would like to express my special thanks to the many teachers who have kindly assisted us and contributed positively to each contents and training camp.

Joint Discussion for Freshmen

I will never forget this wonderful day! We held this big event at KANSAIGAIJAI University on May 15th. Fortunately, about 300 hundred first year students from 10 English clubs joined this event. Most of them came from other university. They join this event not only for discussing in English but also for making friends. I was really happy to hear that each of them had an enjoyable time! I hope this event became one of precious memories for them.

Course Activities

During spring and summer vocation, we can have good opportunities to experience other section's activities. We can know about other section's activities and be able to join a contest, which will be held the end of the day of the activities. I'm sure that every one can have a special experience in other section's activities!

Through this job, coordination department, I learned how important to know about out of place where I am. I could know what are our good points and not. We would like to make our club better one in cooperation with others from now one.

Sincerely yours,
Rie Kawasaki

Rie Kawasaki
Vice-president for Coordination Dep.

Booth in Festivals

Hello! I would like to introduce our booths in each festival through a year.

April Welcome Festival For Freshmen

In this festival, we made PATAJHA and CHAI. We also had great success on it in this year.

June Cultural Exposition

We had 2 booths. In my booth, we made an UME OROSHI HIYASHI UDON, and had spoken English through these 2 days. I am sure we can appeal the real atmosphere of ESS in the festival.

November University Festival

Now, we are planning to have a booth during this university festival.

Through these opportunities, we can have 3 things. 1st one is to cooperate with others well. 2nd one is to compete to others hardly. Last one is to spread our infinite possibilities. I hope we will make more or most enjoyable thing in our life as we could do it in the festivals.

Sincerely,
Taisuke Kurokawa

I would like to express my heartfelt thanks for having the opportunity to introduce the activities I have managed so far.

THE RECITATION CONTEST

1. I HAVE A DREAM by Martin Luther King Jr.
2. THE STORY OF MY LIFE by Helen Keller
3. THE CLOSING STATEMENT by Thomas Tucker
4. TO OUR COMMONWEALTH by Elizabeth II

This year we used four materials.

All participants really worked hard, so the contest could become excellent and stimulating.

THE 35th PRESIDENTIAL CUP ENGLISH RATORICAL CONTEST

This year, nine participants participated in this contest. Five of them were from Fukuoka prefecture. All speeches were excellent. I am sure that all of E.S.S. members were impressed by their speeches and got motivated to work on leaning English harder than before.

This contest succeeded through many people's help. I really appreciate their help. Thank you very much.

ENGLISH LESSON

Now, I am going to have an English lesson. The purpose of this lesson is for the improvement of English skills of E.S.S. members.

Most of freshmen will take this lesson. I appreciate their positive attitude toward leaning English. I hope that I can improve my English with the people who will join this activity.

Thank you very much,

Section Activities

Hello everyone! It is my great pleasure to introduce the main activities in E.S.S. to all of you. That is section activities.

Each member of E.S.S. belongs to one of six sections: Debate, Discussion, Drama, Guide, Speech, and World Studies. We are trying to improve our English skill through these activities.

The main idea of section activities is that we research, examine, discover, and achieve things, by "using" English. I believe that is the key to gain English skill we are needed today.

We really enjoy and do our best on them. I hope that these activities encourage E.S.S. members to have challenging spirits and, sooner or later, to find out their aims or goals for the future.

Sincerely yours,
Ai Okuda

Ai Okuda

Chief of the Section Leaders

Debate Section

Hello, it is great pleasure to introduce our section to you. Can you imagine what debate is? Debate is different from argument or discussion. Debate has some rules and is more formal than a simple discussion.

Debate is a formal discussion with a clear theme. Debaters are on two sides, an affirmative one, or a negative one. They try to persuade the judge, or audience. But each opinion has to mesh together. In debate, there are some steps-first speech, Q&A session (debate session) and final speech. There may be intermissions for strategy among them, and each side has equal opportunities to speak.

By the way, we cannot have a debate without preparation. We need some knowledge or information on the theme. So we seek the information first. After getting enough information, we construct our basic opinion logically. This activity is very important as well debating itself. Of course, we have to research both sides. The basis of debate is sufficient preparation.

Through the debate activity, we can come to think very logically and widely. This ability is useful in our daily life and also business. It is the most effective way to analyze something, and I know it is valuable. Now, there are many freshmen in this section. I hope that I can make all of them interested in debate and they can find some value in it.

Sincerely,
Syota Nakayama

Syota Nakayama
Leader of the Debate Section

Discussion Section

I am very glad to have an opportunity to introduce our section. In this section, we mainly discuss social problems that occur in Japan now.

We have a certain style and rules of discussion, and we hold discussion, following them. The main idea of this section activity is that we analyze what causes the problem, how serious it is, and then, discuss what kind of measures the Japanese Government should take against it and whether the plan should be adopted or not.

Now, we are discussing the issues concerning penal laws in Japan, for instance, death penalty, euthanasia, juvenile delinquency, and so forth.

Through the activity, we are improving various kinds of English skills such as of speaking, listening, and thinking logically. I hope that those kinds of skills help our futures, including daily lives, profitable. We will keep working! Thank you.

**Thank you very much,
Ai Okuda**

Hello everyone! I am very glad to have an opportunity to introduce the Guide Section. We practice guiding and make every effort to understand our own Japanese culture, and also to improve our English skills.

Our main activities are making booklets about temples or shrines for the Volunteer Guide Activity, and making Presentations for Guide Contests.

Volunteer Guide Activity

We go to temples or shrines, mainly Kiyomizu Temple on some holidays, to guide people from other countries. Every June, we research the information and make a booklet about Kiyomizu Temple.

Presentations

In our usual activities, we make presentations about Japanese cultures for Guide Contests. In Guide contests, each member introduces his or her own topic in a conversational style to a Judge using some slides. We also manage the Guide Contest of Kansai Gaidai University in November.

This year, we will hold the Guide Contest for Freshman in November. All members are eager to improve their skills, and study with the aim of improving their cross-cultural understanding. We would like to try something new. I really hope all members will achieve their goals and our Guide Section will continue to improve.

World Studies Section

Hi, everyone. It is a great pleasure to have the opportunity to introduce our section's activities to all of you.

Our main activity is to make a presentation. First, each of us chose a topic that is based on our interests, such as culture, art, famous persons and so on. Secondly, we collected information about the topic, analyzed it and thought about what we wanted to say through our presentation. Then we prepared our presentation that included our own conclusion. Lastly, we hold presentation contests using some visual aids and music. Following our presentation, we have Q&A time.

We discover a lot of new information through making a presentation and exchanging our own ideas. In addition, we can also find new interests and broaden our horizons.

Our section members are making efforts and are enjoying ourselves in every activity. I really believe our World Studies Section will be active more and more.

Freshmen

Hello. I believe that to be a good class leader, not only leadership, is necessary but also a friendship with the freshman, sophomore and junior classes. Through daily activities and different events we will develop a great relationship.

The following is my job description.

1. I was elected by my fellow freshmen and created an annual plan. As it is written, I will surely carry it out.
2. As an ambassador of the freshman class, I attend club meetings every Monday and Friday. I inform the freshmen of what was discussed at the meetings.
3. I manage the 1st class activity in training camp. This past summer we enjoyed "Sukiyaki" game and a name game. Through the games we could become familiar with each other.
